

As the developer of Perspective, I am committed to protecting your privacy. This privacy policy applies to my new tab extension (Perspective).

Information gathering and usage

I collect anonymous usage data using an industry standard third party analytics service (Google Analytics) to better understand the performance of my service. The information I collect via third party services does not contain personal information. The information I collect is used to improve Perspective and the quality of my service, and is not shared with or sold to others.

Your data

Perspective uses third party vendors and hosting partners to provide the necessary hardware, software, networking, storage, and related technology required to run Perspective. Although Perspective owns the code, databases, and all rights to the Perspective application, you retain all rights to your data.

What we store

We store a few anonymous pieces of data about you that are linked to your account, used solely to determine whether you have a pro account. Nothing can be used to identify you and who you are, and we do not distribute this data at all. We will not be able to clear this data for you because it is necessary to determine whether your account has the pro capabilities. We do, however, guarantee your privacy is secure.

Security

I make security a priority across the lifecycle. All communication with servers is secure, using SSL/TLS (HTTPS and HSTS).

Changes

Although most changes are likely to be minor, Perspective may change its Privacy Policy from time to time, and in Perspective's sole discretion. Perspective encourages visitors to frequently check this page for any changes to its Privacy Policy. Your continued use of this site after any change in this Privacy Policy will constitute your acceptance of such change.

If you have any questions, please contact me at PerspectiveNewTab@gmail.com.
